New ZetaTalk Earth Changes Announcements Signs of the Times

Banking Battles

Is there a nexus between the Israel war against Hamas and the ending of the Balfour Agreement on October 31st? Is there a nexus between signs that the National Debt owed to the Rothschild banks is dead and the looming November 17 debt limit being reached once again in the US? Is there a nexus between the Debt Limit being reached and yet another US bank failing? Is there a nexus to liquidity starved Rothschild banks and the Direct Deposit (ACH) being delayed in the US over the weekend of Nov 4-5? Short answer: yes.

Bank Deposit Delays: Some Customers still haven't been Paid
November 6, 2023
https://www.cnn.com/2023/11/06/business/bank-deposits-paycheck

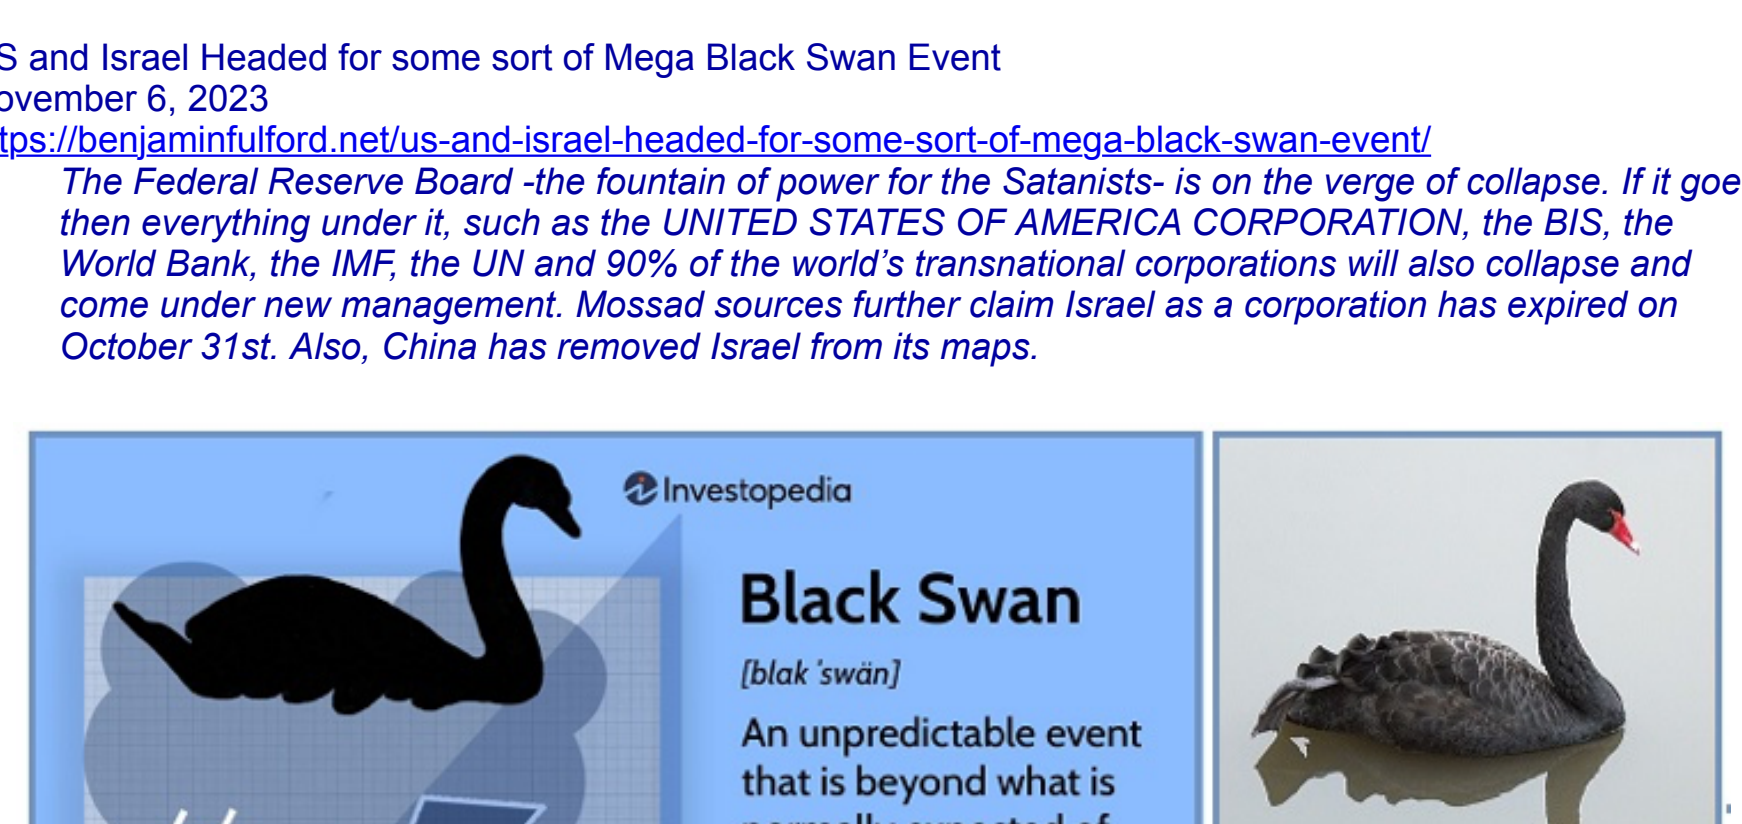
> *Some customers still haven't received their direct deposit paychecks following a "human error" last week deep in the plumbing of America's banking system. The deposit delays are linked to a problem that emerged on Friday with the Automated Clearing House (ACH) payments system, causing headaches for consumers and employers. Banks stressed to customers that all funds are secure. Payments that did not go through late last week had to be resent, a process that can take time.*

FDIC Takes Over Fifth U.S. Bank of 2023
November 6, 2023
https://dsnews.com/news/11-06-2023/fdic-fifth-bank-2023

> *Citizens Bank, based in Sac City, Iowa, has been closed by the Iowa Division of Banking due to financial instability, marking the fifth U.S. bank failure reported in 2023. The Iowa Division of Banking has appointed the Federal Deposit Insurance Corporation (FDIC) as receiver.*

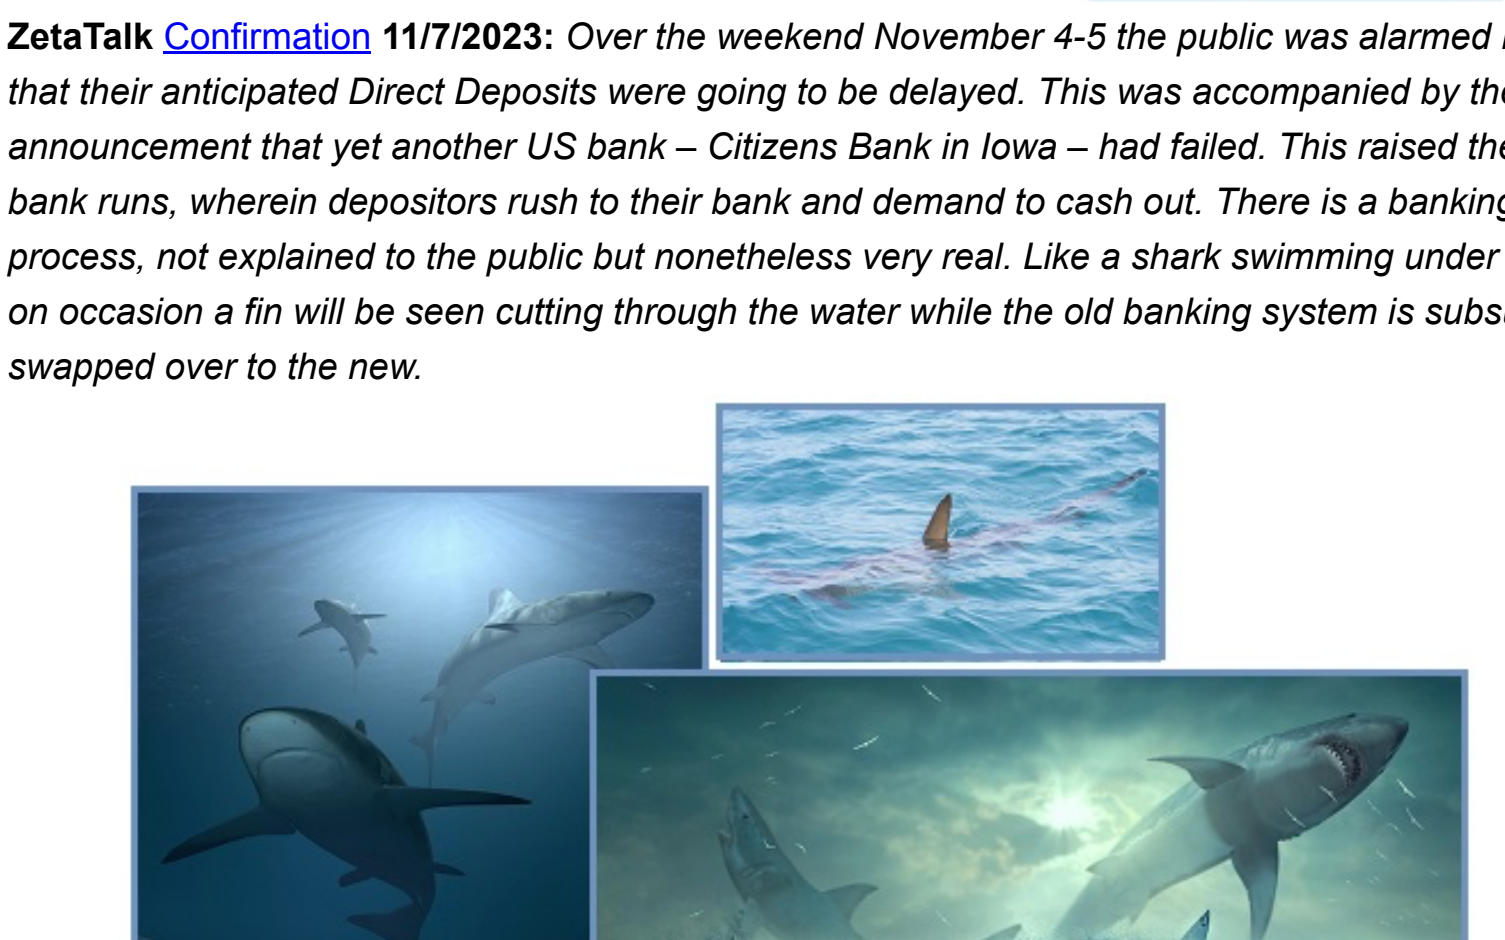
US and Israel Headed for some sort of Mega Black Swan Event
November 6, 2023
https://benjaminfulford.net/us-and-israel-headed-for-some-sort-of-mega-black-swan-event/

> *The Federal Reserve Board -the fountain of power for the Satanists- is on the verge of collapse. If it goes, then everything under it, such as the UNITED STATES OF AMERICA CORPORATION, the BIS, the World Bank, the IMF, the UN and 90% of the world's transnational corporations will also collapse and come under new management. Mossad sources further claim Israel as a corporation has expired on October 31st. Also, China has removed Israel from its maps.*



Investopedia
Black Swan
[blak 'swän]
An unpredictable event that is beyond what is normally expected of a situation and has potentially severe consequences.

ZetaTalk Confirmation **11/7/2023:** *Over the weekend November 4-5 the public was alarmed by reports that their anticipated Direct Deposits were going to be delayed. This was accompanied by the announcement that yet another US bank – Citizens Bank in Iowa – had failed. This raised the specter of bank runs, wherein depositors rush to their bank and demand to cash out. There is a banking transition in process, not explained to the public but nonetheless very real. Like a shark swimming under the surface, on occasion a fin will be seen cutting through the water while the old banking system is subsumed and swapped over to the new.*



The Event?
https://twitter.com/Prolotario1/status/1721734305074774332

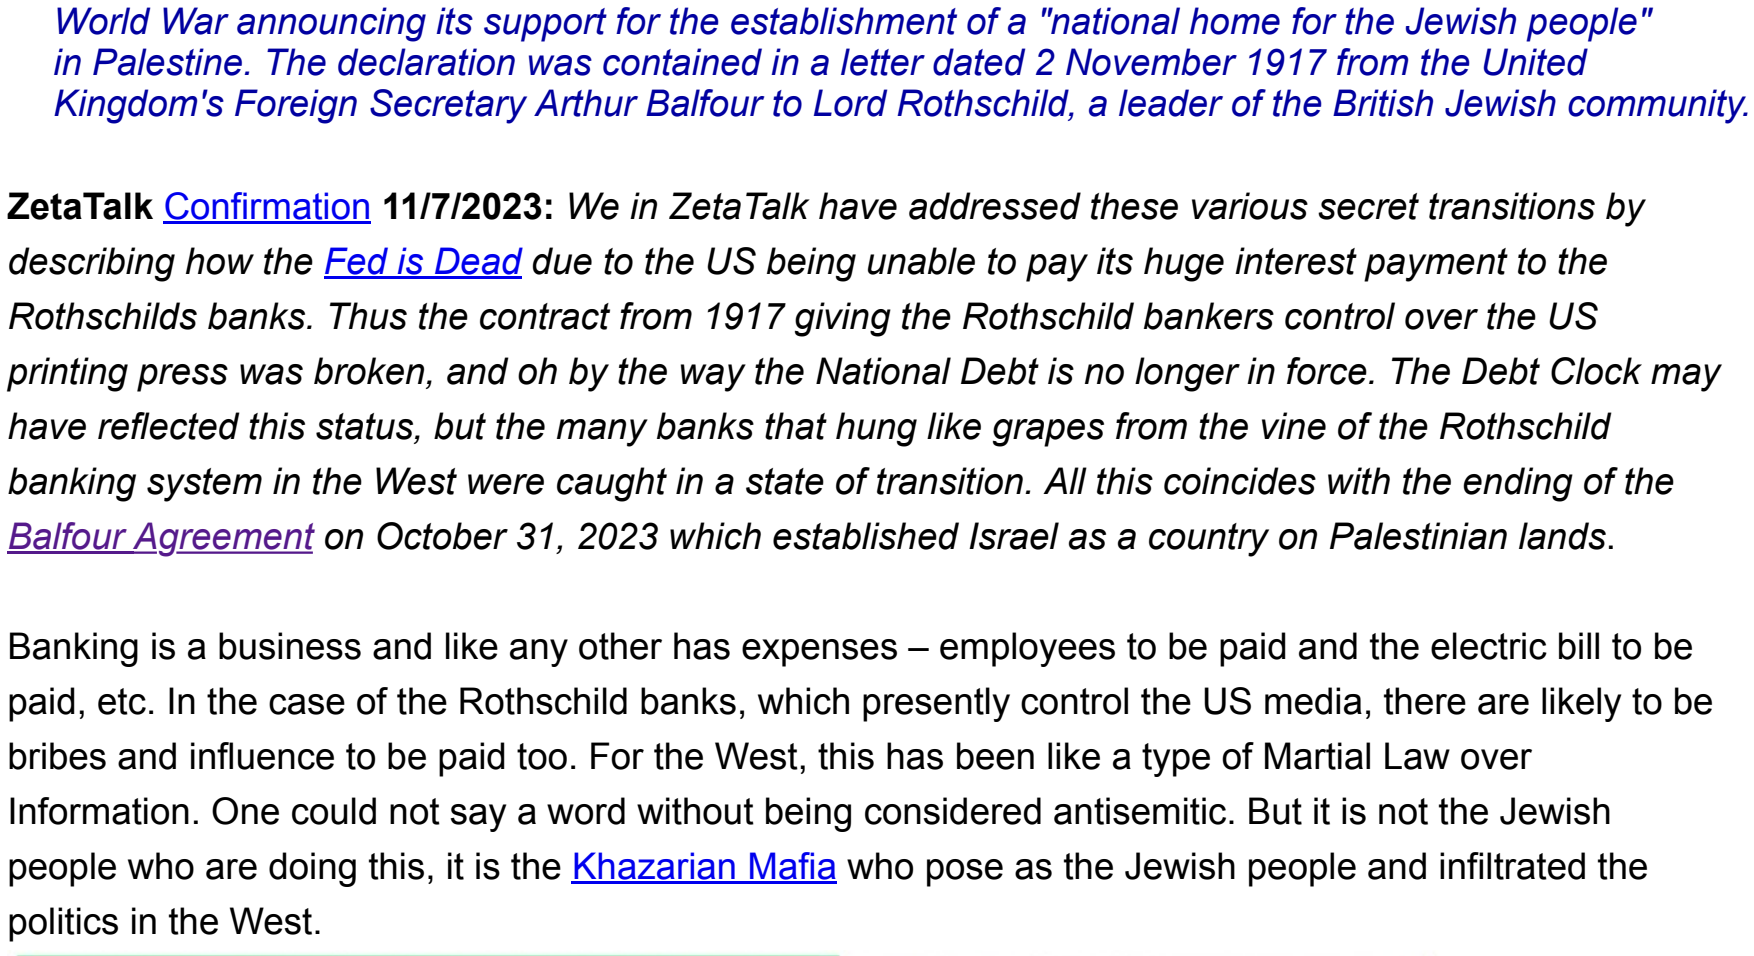
> *The Event? Israel is no longer protected as a sovereign state. Banks are collapsing. Countries are dumping the USD. The Middle East no longer accepts it in oil contracts. We are going back on the Gold Standard. The Federal Reserve was already absorbed by the US Treasury. Their printing press is gone.*

Balfour Declaration
https://en.wikipedia.org/wiki/Balfour_Declaration

> *The Balfour Declaration was a public statement issued by the British government in 1917 during the First World War announcing its support for the establishment of a "national home for the Jewish people" in Palestine. The declaration was contained in a letter dated 2 November 1917 from the United Kingdom's Foreign Secretary Arthur Balfour to Lord Rothschild, a leader of the British Jewish community.*

ZetaTalk Confirmation **11/7/2023:** *We in ZetaTalk have addressed these various secret transitions by describing how the Fed is Dead due to the US being unable to pay its huge interest payment to the Rothschild banks. Thus the contract from 1917 giving the Rothschild bankers control over the US printing press was broken, and oh by the way the National Debt is no longer in force. The Debt Clock may have reflected this status, but the many banks that hung like grapes from the vine of the Rothschild banking system in the West were caught in a state of transition. All this coincides with the ending of the Balfour Agreement on October 31, 2023 which established Israel as a country on Palestinian lands.*

Banking is a business and like any other has expenses – employees to be paid and the electric bill to be paid, etc. In the case of the Rothschild banks, which presently control the US media, there are likely to be bribes and influence to be paid too. For the West, this has been like a type of Martial Law over Information. One could not say a word without being considered antisemitic. But it is not the Jewish people who are doing this, it is the Khazarian Mafia who pose as the Jewish people and infiltrated the politics in the West.



One method of control is the interbank transaction connection. Currently most of the West uses SWIFT, but this is changing. Basel III and ISO 20022 are two new welcome additions.

SWIFT
https://en.wikipedia.org/wiki/SWIFT#SWIFTNet_Phase_2

> *The Society for Worldwide Interbank Financial Telecommunication (Swift), is a Belgian cooperative society providing services related to the execution of financial transactions and payments between certain banks worldwide. Its principal function is to serve as the main messaging network through which international payments are initiated. SWIFT was founded in Brussels on 3 May 1973.*

China's SWIFT 'Equivalent' goes Viral in Capital Market
March 1, 2022
https://www.shine.cn/news/in-focus/2203012548/

> *CIPS or the Cross-Border Interbank Payment System, seen as the Chinese equivalent of the globally-used SWIFT. The others include Europe's INSTEX (Instrument in Support of Trade Exchanges) and Russia's SPFS (Financial messaging system of the Bank of Russia).*

Basel III: An Essential Guide
https://www.delphix.com/glossary/basel-iii

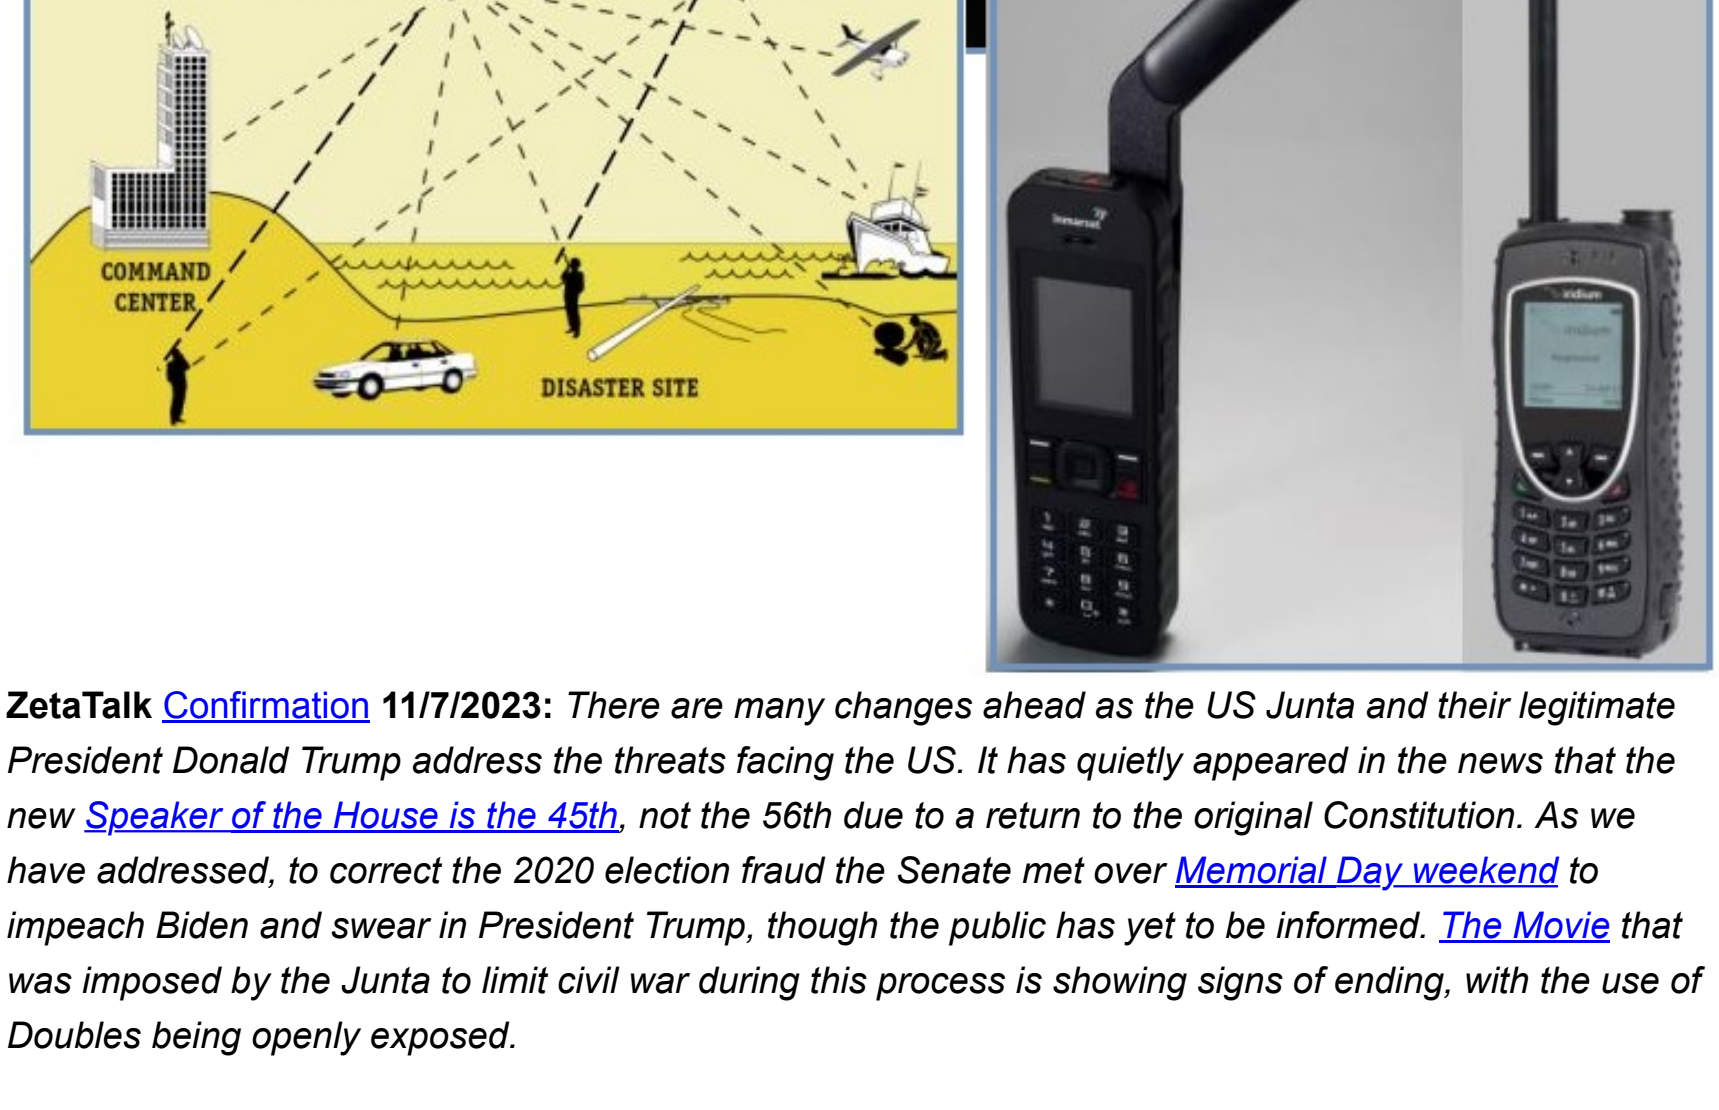
> *Basel III is a set of international banking regulations developed by the Bank for International Settlements in order to promote stability in the international financial system. Basel III regulation is designed to decrease damage done to the economy by banks that take on too much risk.*

The New Language of Payments
https://twitter.com/Prolotario1/status/1721932052554039675

> *How ISO-2022 is Transforming the Financial Industry The info regarding ISO-20022 Compliant banks has been spoken about for months on this account. JP Morgan Chase will be going live on November 19th 2023. Why do banks need ISO-20022? Improved Efficiency and Accuracy of Payments: ISO-20022 is a more standardized and structured messaging format than previous standards. This makes it easier for banks to process payments and reduces the risk of errors. Banks are rushing to employ this technology now.*

ZetaTalk Confirmation **11/7/2023:** *One of the changes noted months ago was switching to a new means of interbank and intercountry money transfers. The western banks have long used the SWIFT system, established in Belgium in 1973 and very much under the control of the Rothschild banks who can block transfers if they wish. This is one of the means by which sanctions were imposed upon Russia, but Russia and China as BRICS members used an alternative system. Notably, alternatives to SWIFT have emerged in the US during the banking system transition to the new QFS but there are many pitfalls.*

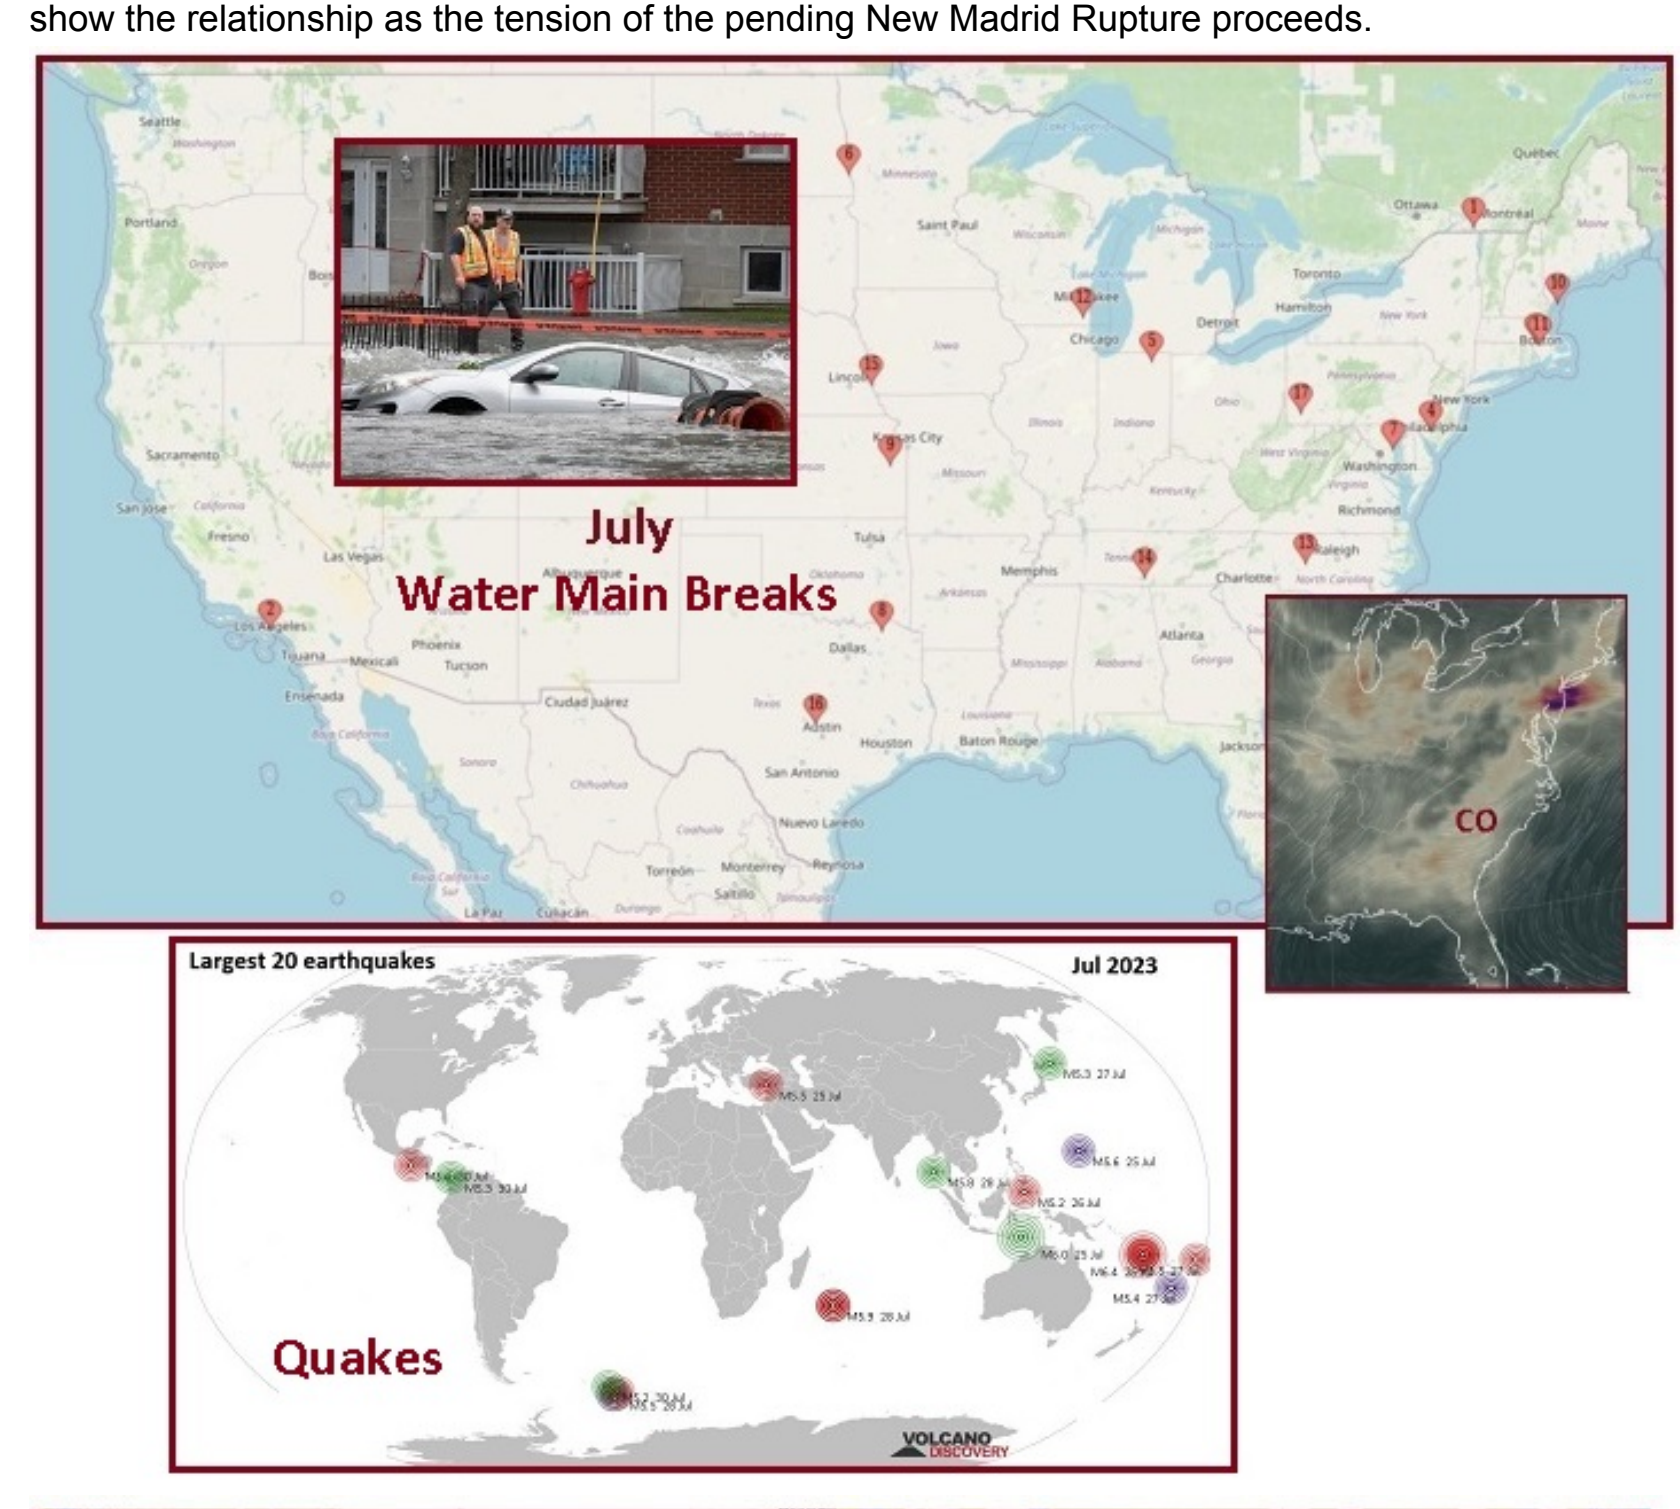
All these changes are under the radar unless some anomaly like ACH direct deposits being late emerges. For the shell-shocked public who is still trying to understand how President Trump with 80% of the votes did not end up in the White House in 2020, remember that this is all a Movie. The election fraud will sort out, and meanwhile President Trump is considered the Commander in Chief by the Military. At some point what transpired over the Memorial Day weekend when Senators were issued Satellite Phones will be revealed to the public.

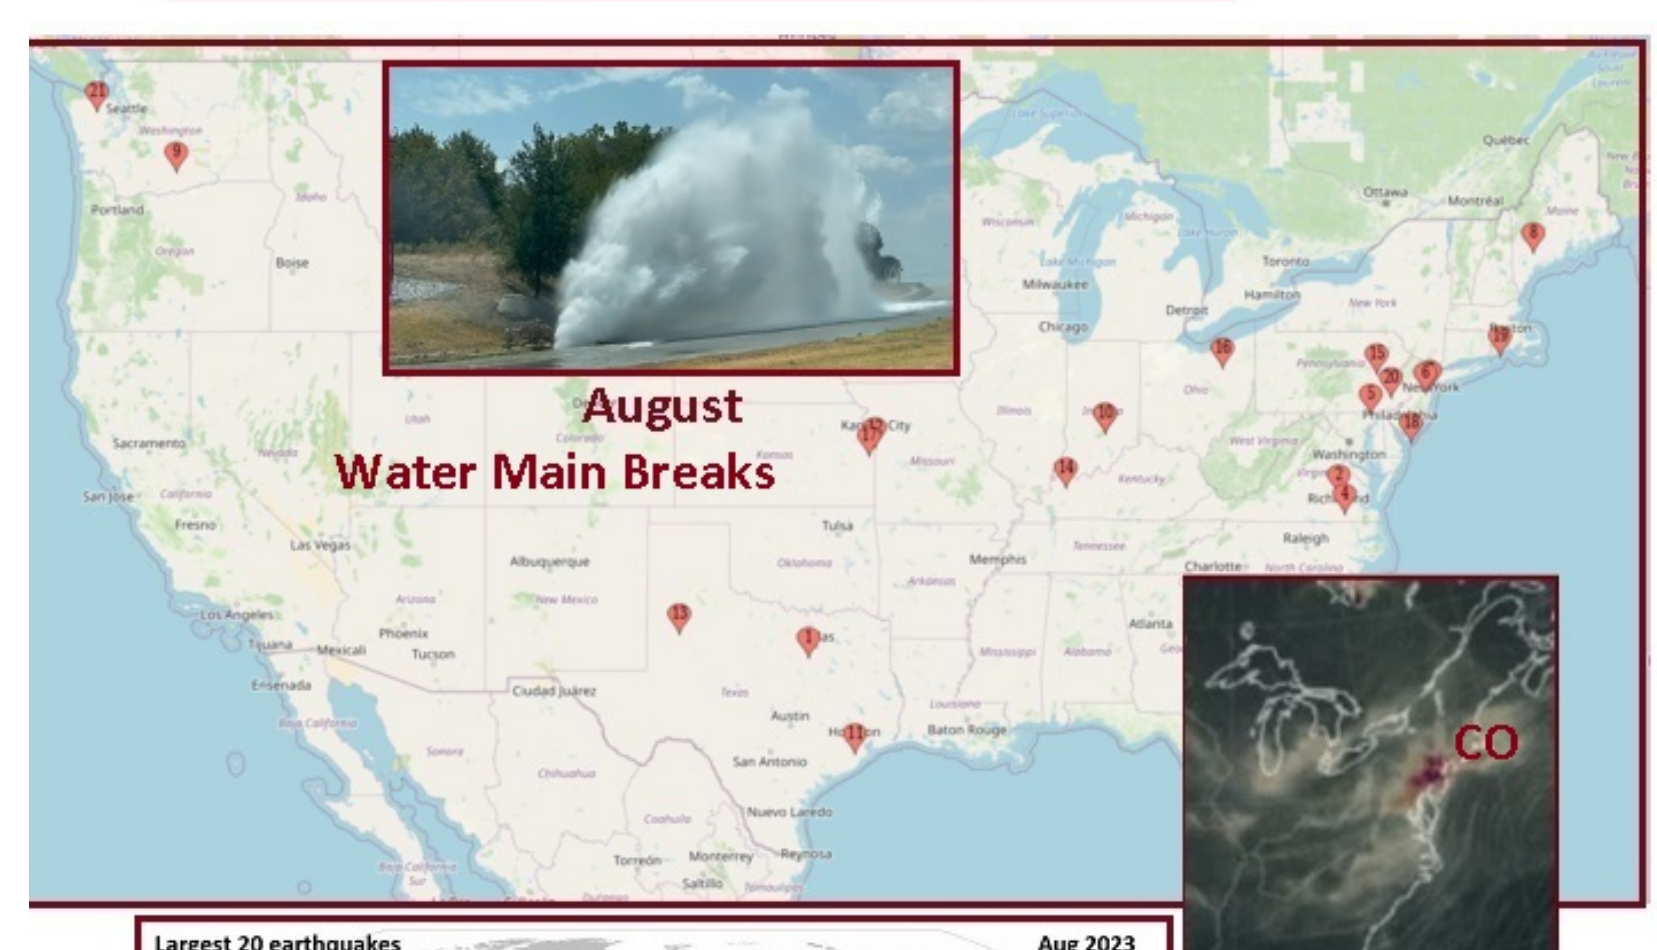


ZetaTalk Confirmation **11/7/2023:** *There are many changes ahead as the US Junta and their legitimate President Donald Trump address the threats facing the US. It has quietly appeared in the news that the new Speaker of the House is the 45th, not the 56th due to a return to the original Constitution. As we have addressed, to correct the 2020 election fraud the Senate met over Memorial Day weekend to impeach Biden and swear in President Trump, though the public has yet to be informed. The Movie that was imposed by the Junta to limit civil war during this process is showing signs of ending, with the use of Doubles being openly exposed.*

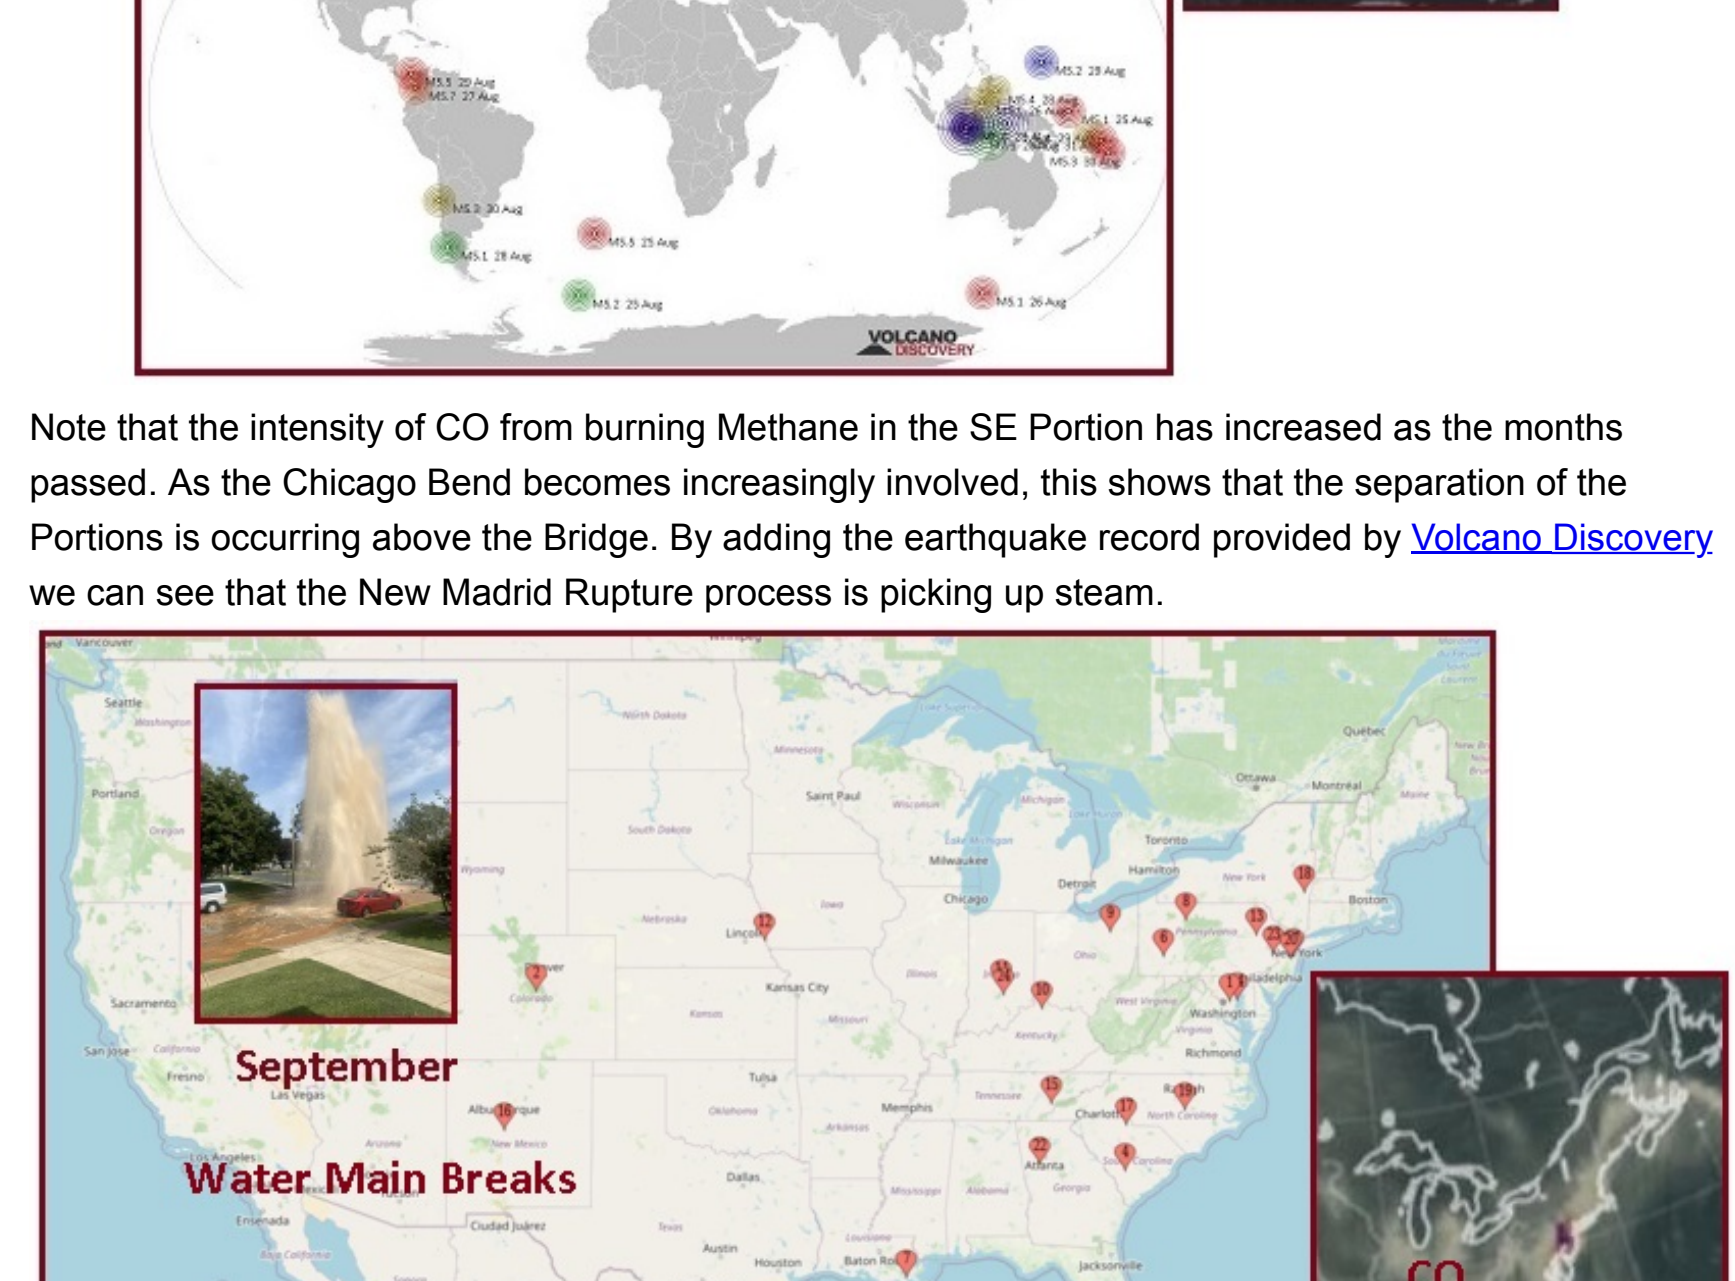
Data Nexus

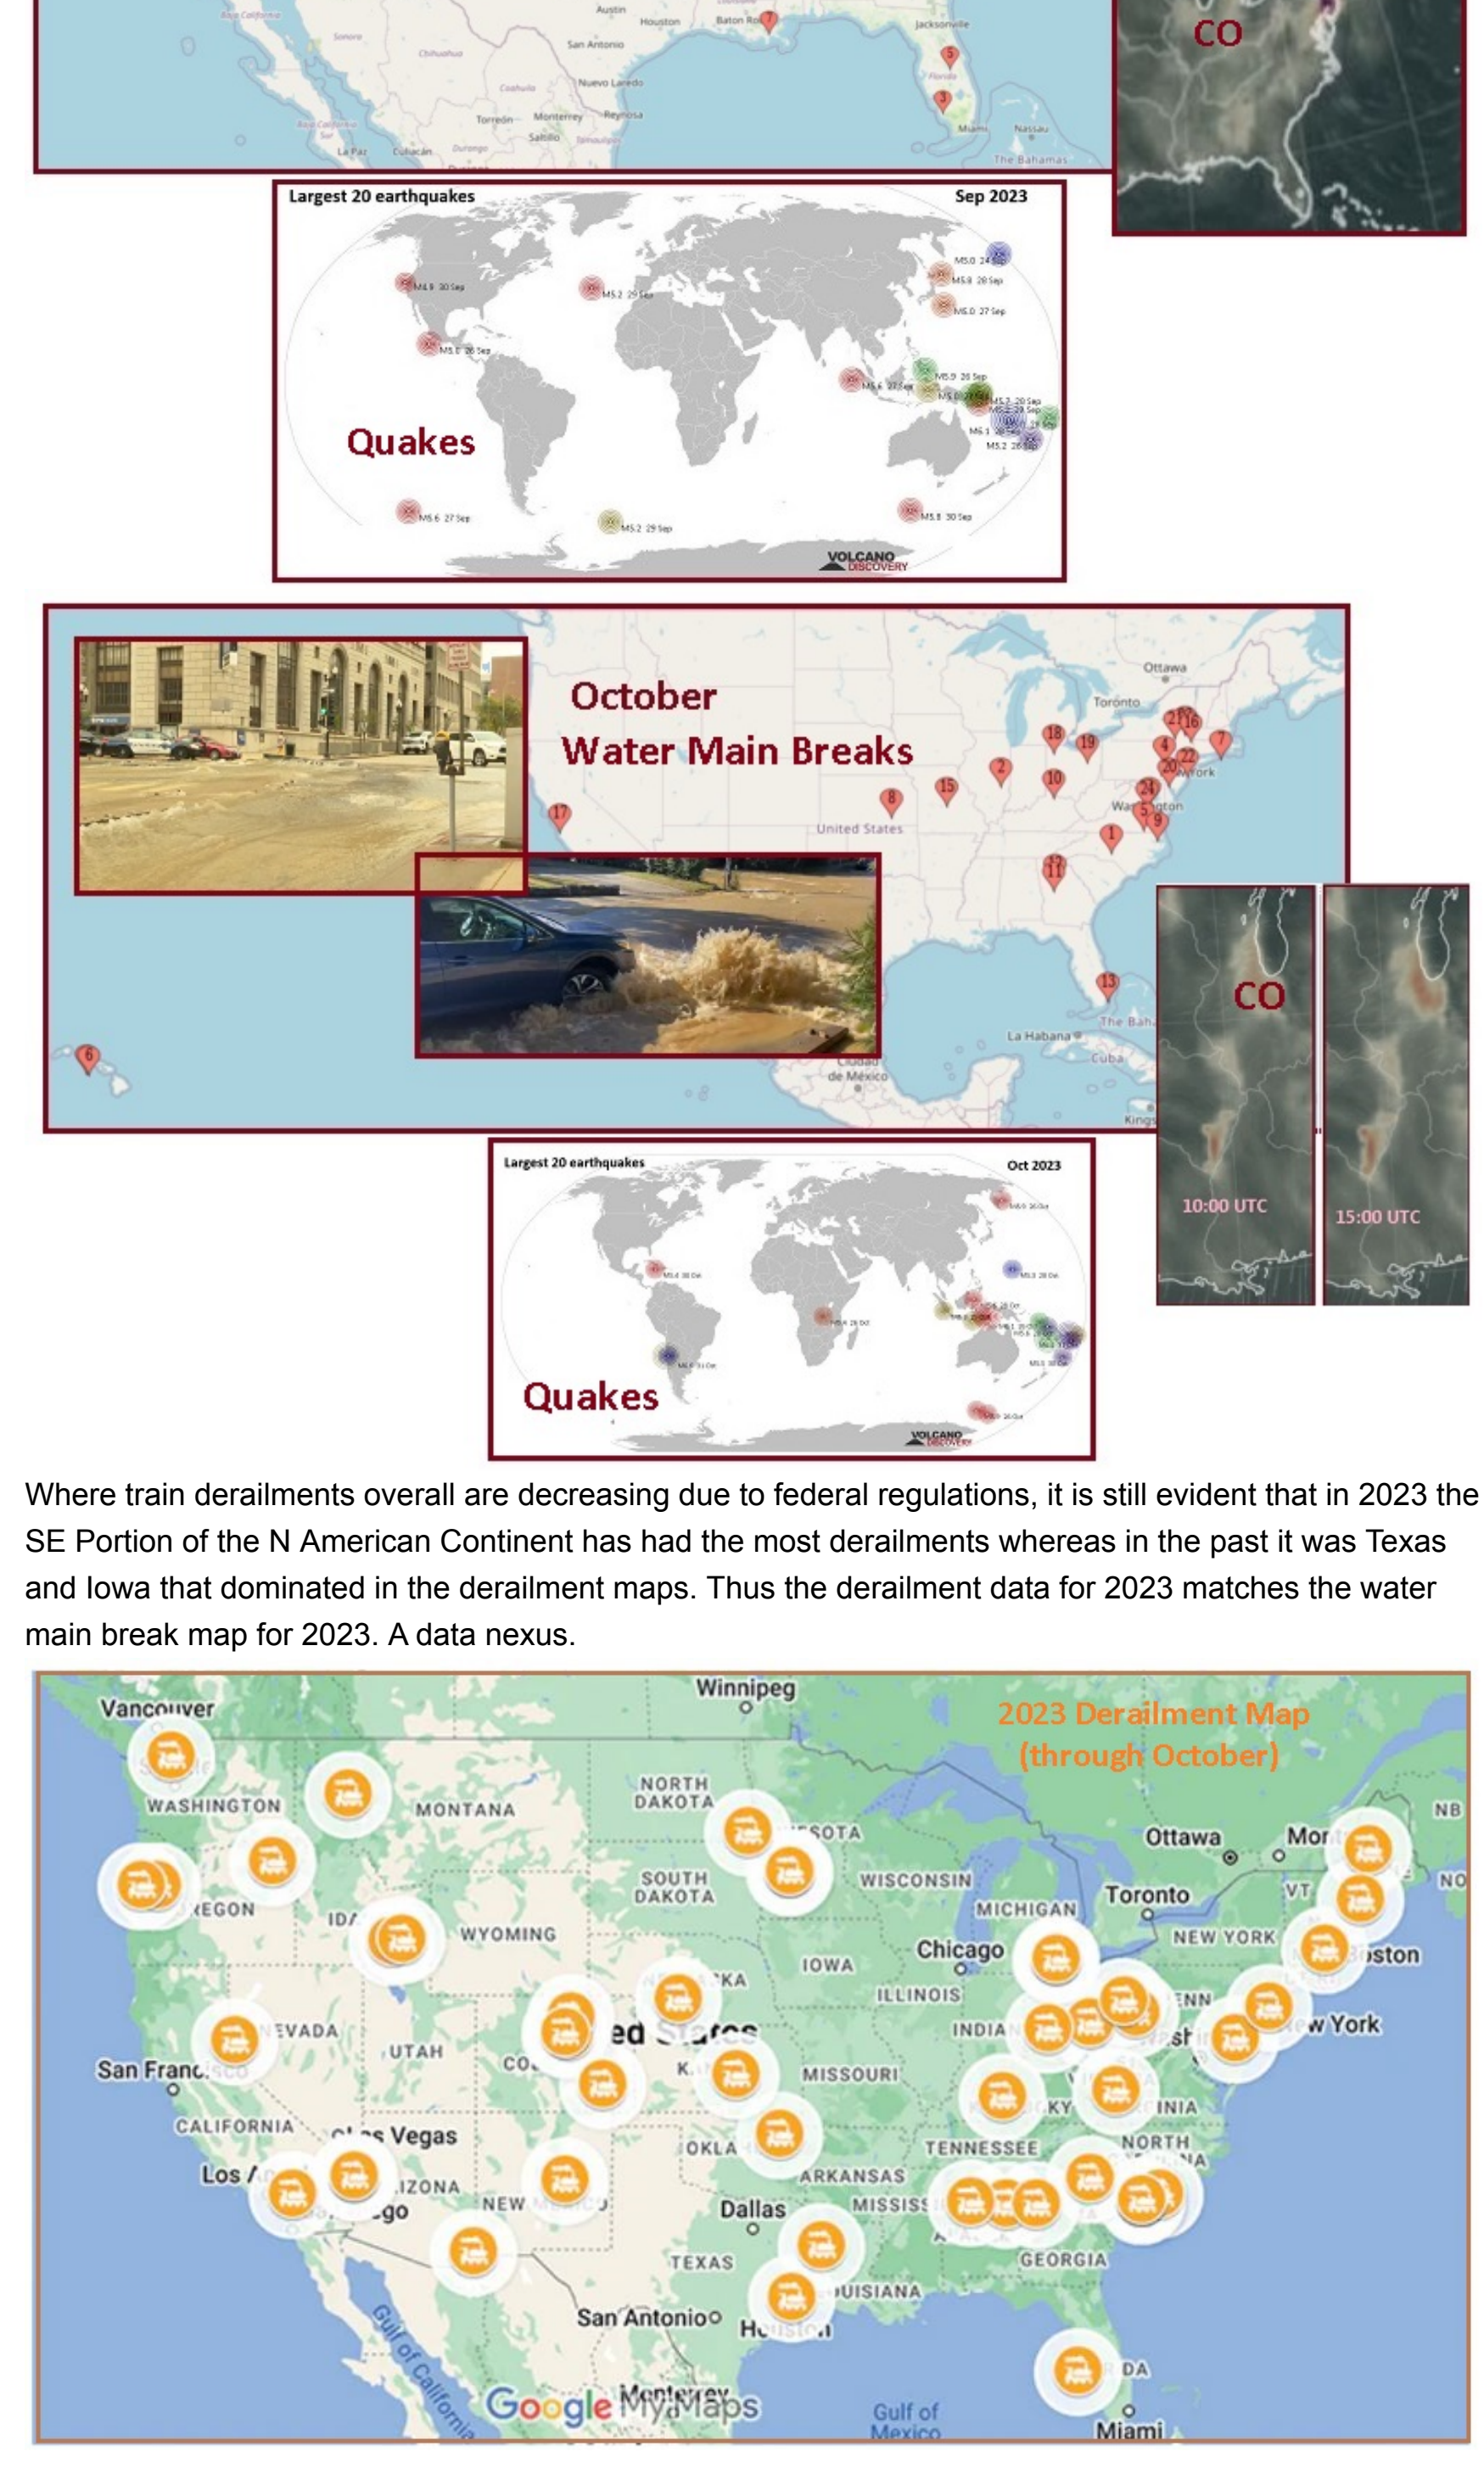
The N American Continent is on the rack, being pulled apart during the process of the New Madrid Rupture. This can be seen from earthquake reports and maps of where the ripping rock emits SO2 Methane gas and CO Carbon Monoxide from resulting underground fires. While collapsing bridges and buildings and exploding gas mains have also occurred, this detailed record of the water main breaks show the relationship as the tension of the pending New Madrid Rupture proceeds.



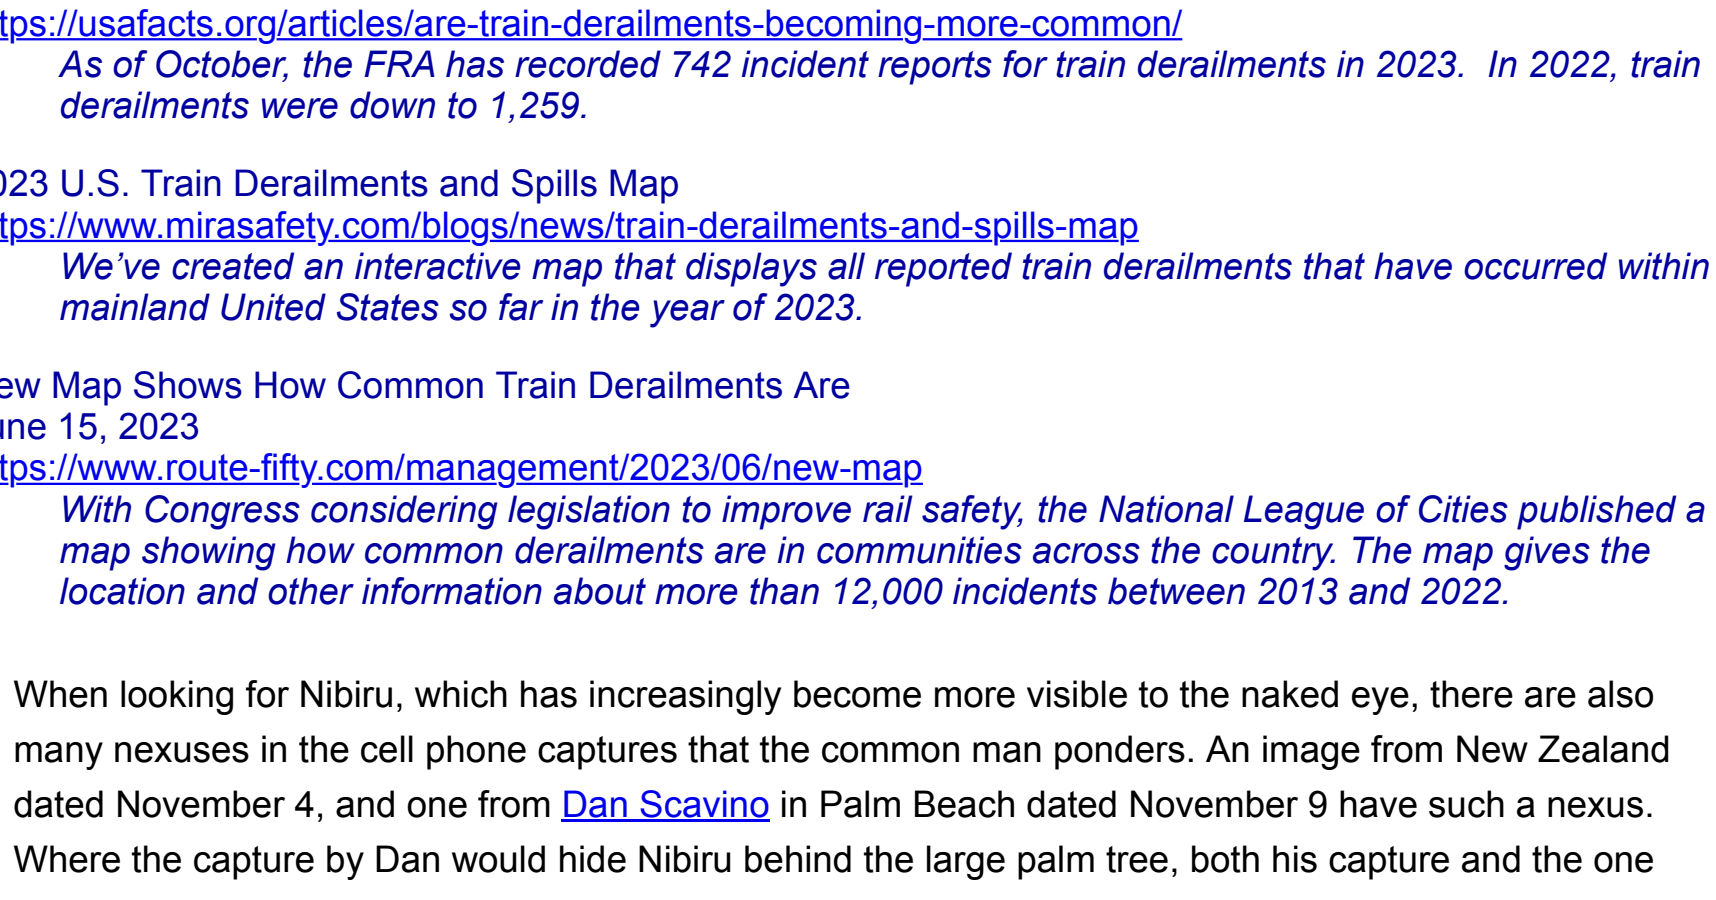


Note that the intensity of CO from burning Methane in the SE Portion has increased as the months passed. As the Chicago Bend becomes increasingly involved, this shows that the separation of the Portions is occurring above the Bridge. By adding the earthquake record provided by Volcano Discovery we can see that the New Madrid Rupture process is picking up steam.





Where train derailments overall are decreasing due to federal regulations, it is still evident that in 2023 the SE Portion of the N American Continent has had the most derailments whereas in the past it was Texas and Iowa that dominated in the derailment maps. Thus the derailment data for 2023 matches the water main break map for 2023. A data nexus.



Are Train Derailments becoming More Common?
October 25, 2023
https://usafacts.org/articles/are-train-derailments-becoming-more-common/

> *As of October, the FRA has recorded 742 incident reports for train derailments in 2023. In 2022, train derailments were down to 1,259.*

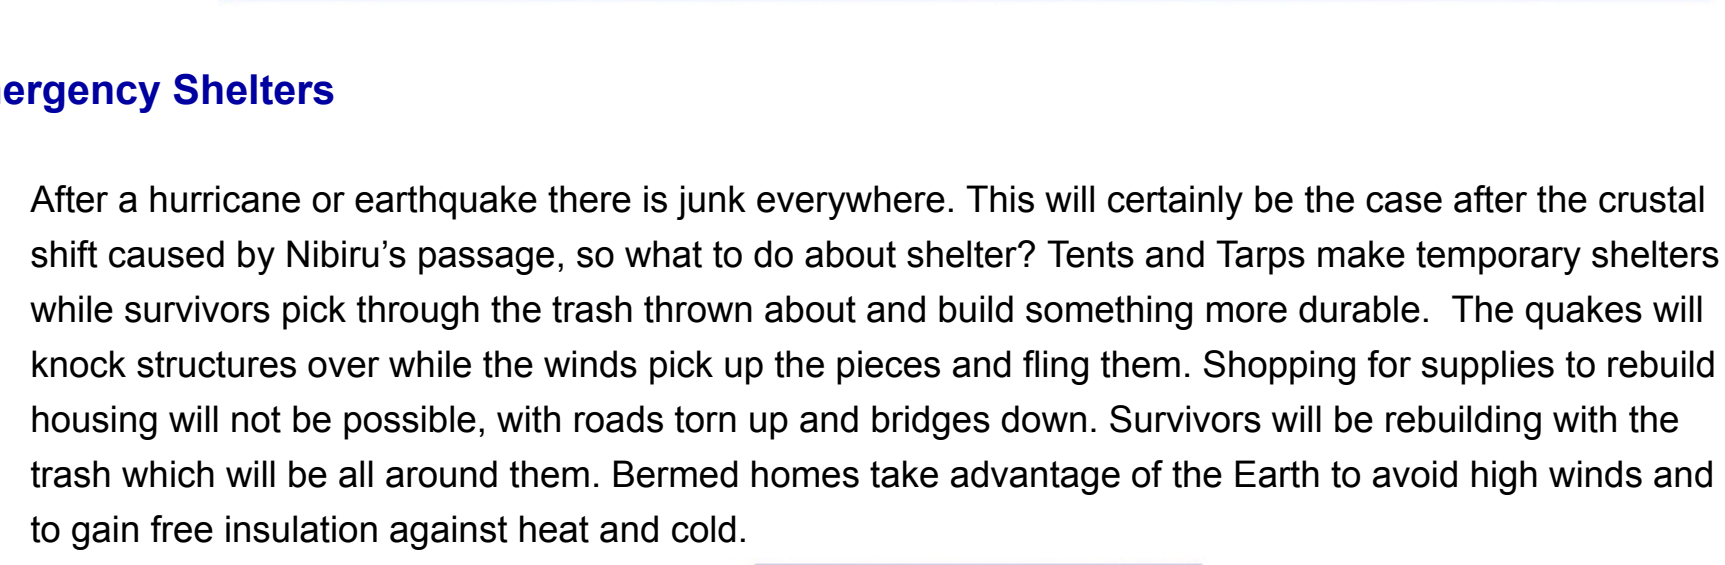
2023 U.S. Train Derailments and Spills Map
https://www.mirasafety.com/blogs/news/train-derailments-and-spills-map

> *We've created an interactive map that displays all reported train derailments that have occurred within the mainland United States so far in the year of 2023.*

New Map Shows How Common Train Derailments Are
June 15, 2023
https://www.route-fifty.com/management/2023/06/new-map

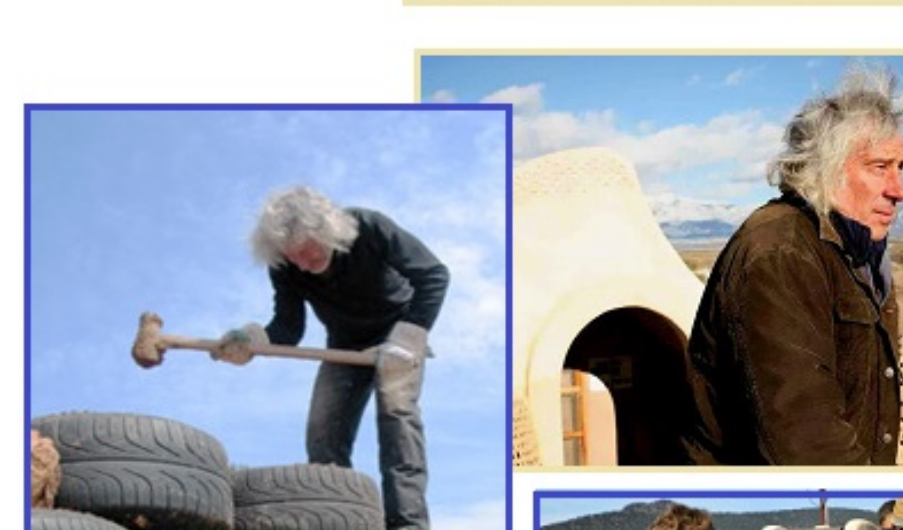
> *With Congress considering legislation to improve rail safety, the National League of Cities published a map showing how common derailments are in communities across the country. The map gives the location and other information about more than 12,000 incidents between 2013 and 2022.*

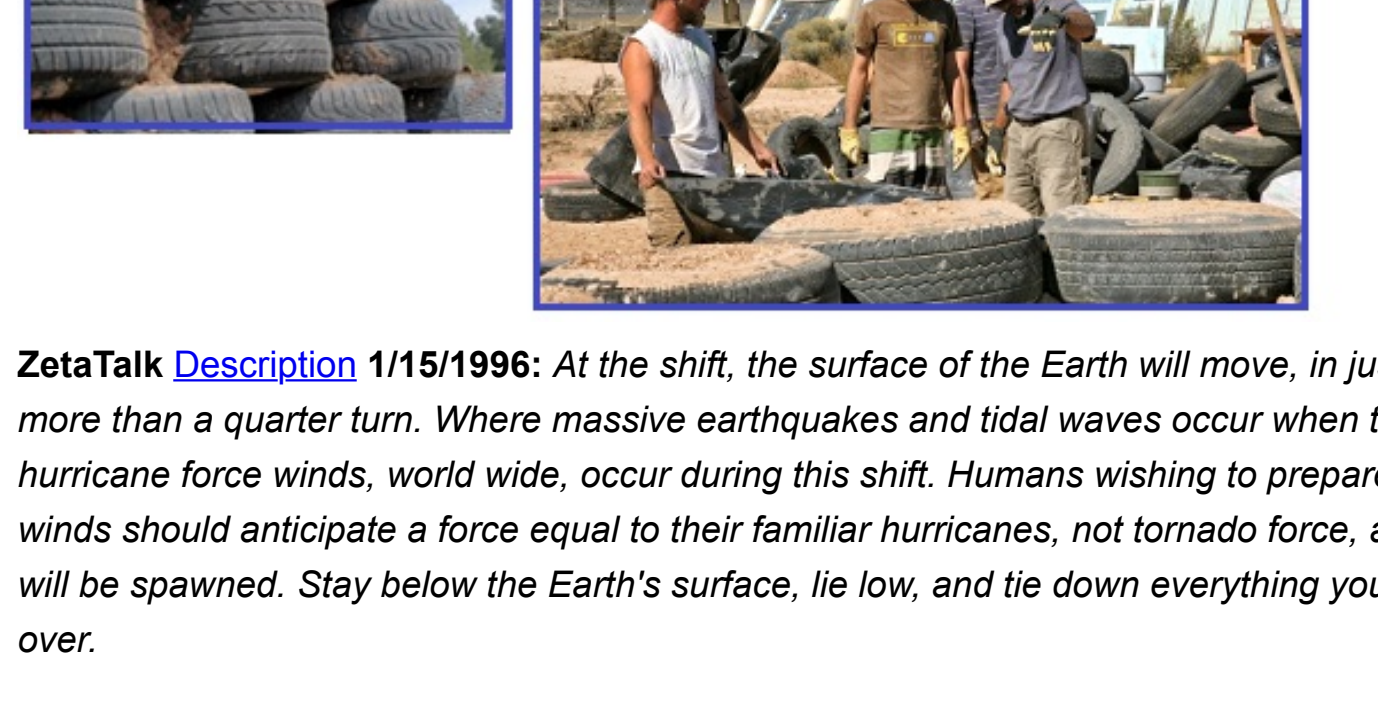
When looking for Nibiru, which has increasingly become more visible to the naked eye, there are also many nexuses in the cell phone captures that the common man ponders. An image from New Zealand dated November 4, and one from Dan Scavino in Palm Beach dated November 9 have such a nexus. Where the capture by Dan would hide Nibiru behind the large palm tree, both his capture and the one from New Zealand have the same slant in the resulting sunray distortion by Nibiru.



Emergency Shelters

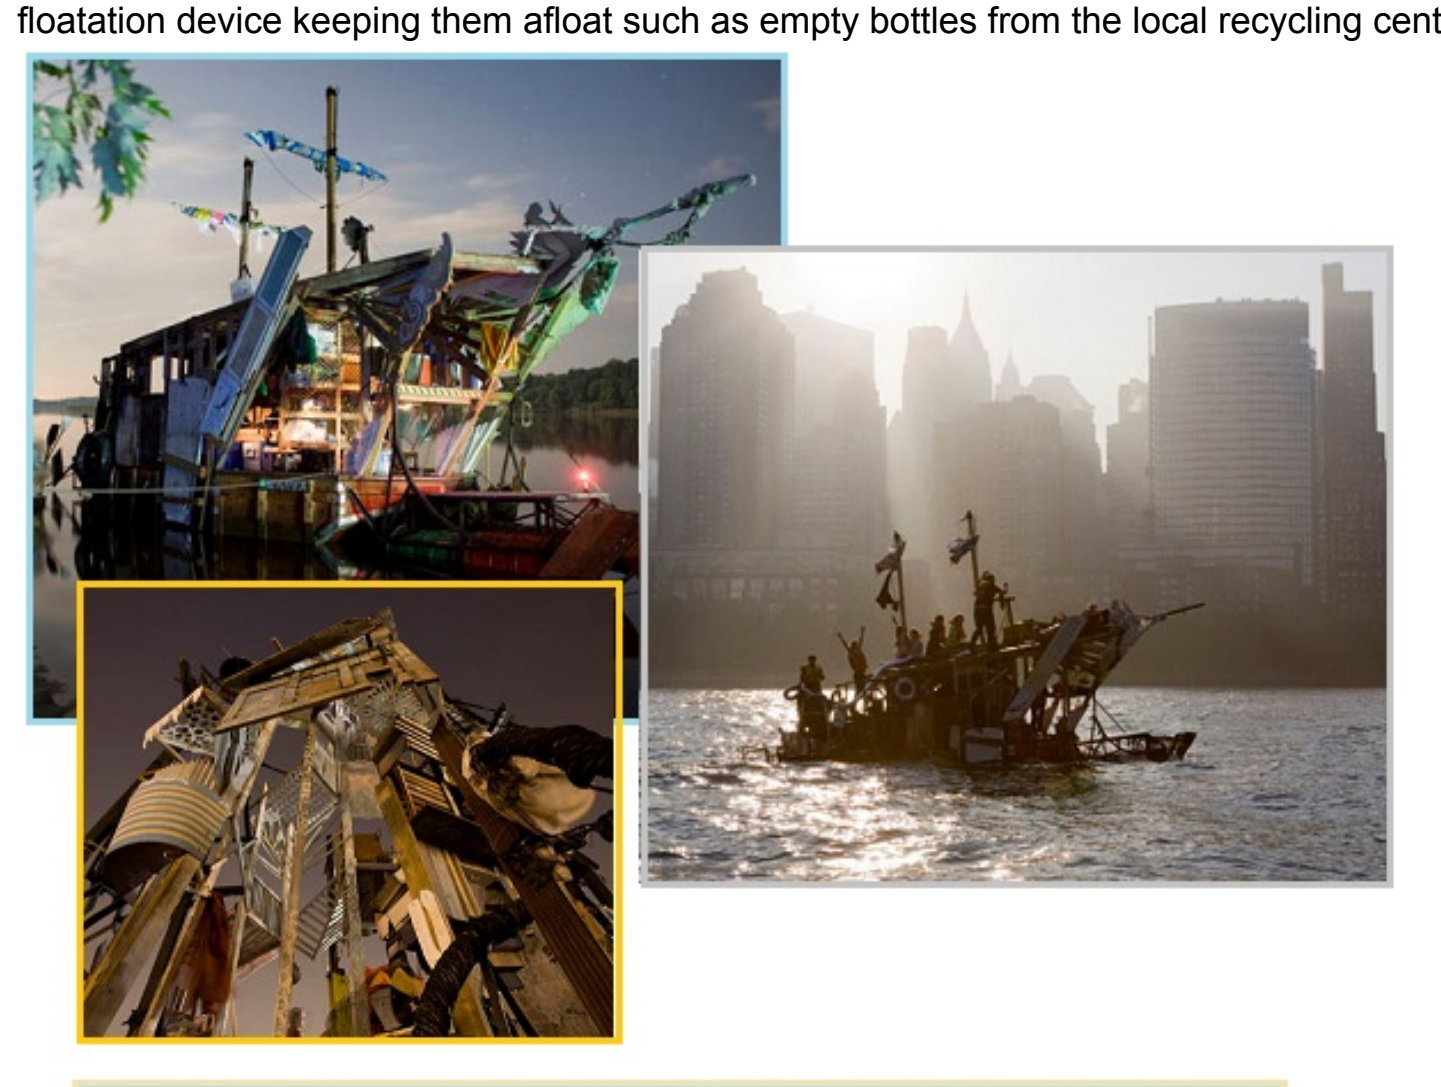
After a hurricane or earthquake there is junk everywhere. This will certainly be the case after the crustal shift caused by Nibiru's passage, so what to do about shelter? Tents and Tarps make temporary shelters while survivors pick through the trash thrown about and build something more durable. The quakes will knock structures over while the winds pick up the pieces and fling them. Shopping for supplies to rebuild housing will not be possible, with roads torn up and bridges down. Survivors will be rebuilding with the trash which will be all around them. Bermed homes take advantage of the Earth to avoid high winds and to gain free insulation against heat and cold.

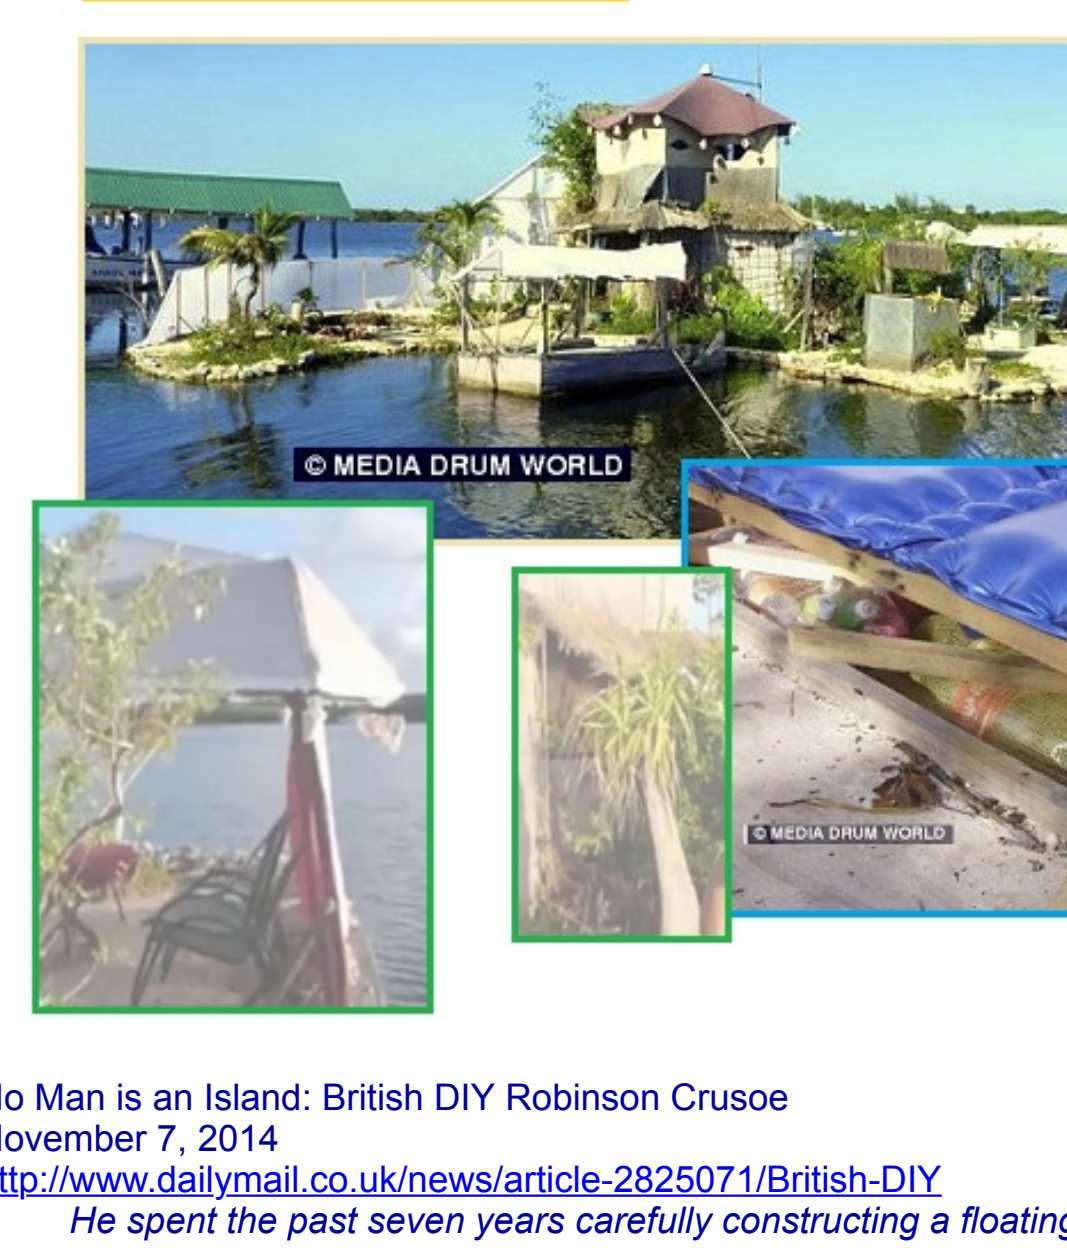




ZetaTalk Description **1/15/1996:** *At the shift, the surface of the Earth will move, in just under an hour, more than a quarter turn. Where massive earthquakes and tidal waves occur when this motion stops, hurricane force winds, world wide, occur during this shift. Humans wishing to prepare for these violent winds should anticipate a force equal to their familiar hurricanes, not tornado force, although tornadoes will be spawned. Stay below the Earth's surface, lie low, and tie down everything you wish to find when it's over.*

The Pole Shift flood tides are not a large violent wave, per the Zetas, but a steadily rising tide. Essentially, a high tide! Houseboat living is highly recommended, especially for those regions of the world which will flood to an immense degree after the Pole Shift, such as Siberia and the Amazon and Mississippi River regions. Houseboats and houseboat communities can be built from trash with almost any kind of floatation device keeping them afloat such as empty bottles from the local recycling center.





No Man is an Island: British DIY Robinson Crusoe
November 7, 2014
http://www.dailymail.co.uk/news/article-2825071/British-DIY

> *He spent the past seven years carefully constructing a floating eco-paradise - complete with a hot tub and Internet connection - out of 150,000 recycled bottles. The three-story house on the island boasts, two bedrooms, a hot tub, three shell showers, a kitchen and working Internet. It is surrounded by palm trees, mangroves, fruit trees and edible herbs and plants, which all grow from the sand and soil of the hand-made island. Solar panels now provide electricity. There is a lot of physical labor involved in keeping it up especially in the early years before the mangrove roots weave through the base and strengthen everything.*

ZetaTalk Advice **2001:** *Our suggestion is to plan for a floating community, as fishing will be abundant in the Aftertime. Build your boats now, in anticipation of this. You may be laughed at, as a modern day Noah, but you will be master of your own country so to speak, and able to travel where you wish.*
